EDUCATION

Royal Holloway, University of London | BSc Computer Science

September 2023 – July 2026

Second – Upper Class with Honours Achieved

Relevant Modules – Software Engineering, OOP, Symbolic AI, Algorithms & Complexity, Databases, Network Security, Operating Systems, Software Design, IT Project Management, Digital Forensics, Cryptography.

Kingston University | Foundation Year in Computer Science

September 2022 – August 2023

Distinction (75)

Kingsley Academy

September 2015 – August 2022

GCSEs (Grades 6–9) A Levels: Maths, Computer Science, Geography (Pass or above)

EXPERIENCE

Computer Science Tutor (Head Teacher) | Code Camp UK

September 2025 – Current

- Led weekly structured coding sessions for cohorts of 10+ students (ages 6–10), translating complex CS fundamentals into age-appropriate lessons.
- Delivered 100% of curriculum goals; students built functional projects by term-end. Maintained 100% accuracy in attendance tracking and safety compliance.

Founder | TheSneakaz | Twickenham.

March 2019 – August 2025

- Generated £150,000+ in total revenue managing a weekly inventory of 60+ units; executed high-volume B2B sales via StockX and Alias.
- Secured a vendor spot at SneakerCon (Olympia London), generating £3,000+ in single-day revenue across 200+ customer interactions.
- Grew brand presence to 400+ Instagram followers through daily content strategies and service-led customer retention.

Retail Sales Supervisor | Havaianas | Westfield White City.

March 2025 – April 2025

- Led a team of 6 in a high-traffic retail environment, overseeing full operational life-cycles including opening, closing, and software reconciliation.
- Analysed daily sales KPIs using Excel; generated end-of-day reports to optimise revenue strategies while servicing ~200 customers daily.

Door to Door Sales | Link Marketing | Slough.

December 2023 – February 2024

- Executed 50+ daily B2C interactions; advanced from Level 1 to 3 in <2 weeks — fastest in the cohort. Ranked #1 in a training cohort of 50+.

Projects

Nync | SaaS Calendar & Meeting Management Platform.

- Consolidated 4 workflows (Scheduling, Billing, Analytics, Notifications) into a Python-based SaaS platform; reduced booking friction by ~90% via Google & Outlook calendar APIs.
- Architected Stripe billing across 4 subscription tiers with automated webhooks; integrated Discord & MS Teams with real-time "Martyr Board" meeting analytics.

ShopOS v4 | Production POS & Inventory System — Saynama.

- Converted a single-file HTML prototype into a production-ready 32-file TypeScript/Node.js/Prisma/PostgreSQL multi-user POS system with zero type errors; deployed on Railway.
- Engineered full two-way Shopify sync via OAuth 2.0 and webhooks — bidirectionally updating inventory, orders, and customers across physical and online store in real time.
- Built barcode/QR label generation, role-based access control, and a KPI analytics dashboard with staff performance and stock-level reporting.

PokéManager | Pokémon Card Inventory & eBay Sales Platform.

- Built a full-stack card inventory and sales management system with real-time eBay order sync, automated profit/fee calculation, and bundle sale handling across multi-quantity listings.
- Integrated eBay OAuth token auto-refresh, web push notifications (VAPID), and CSV export; architected Supabase PostgreSQL backend with per-item profit tracking and promoted listing fee reconciliation.

Leadership

Men's Basketball 1st Team Captain | Royal Holloway University of London

- Elected by peers to lead the 1st Team; managed training schedules, game logistics, and coaching liaison.
- Led the team to league promotion for the first time in 5 years and captained the squad to the club's first-ever LUSL Cup victory.

Skills.

- Python, Java, JavaScript, TypeScript, HTML5/CSS3, SQL, React, Node.js, Spring Boot, Streamlit, Supabase, Firebase, REST APIs, Prisma, Docker, Railway, Nginx.
- GitHub, GitLab, LLM/AI Integration, GCP, Stripe API, OAuth 2.0, Webhooks, SaaS Architecture, Shopify API, eBay API, Web Push (VAPID), Microsoft Excel, Adobe Photoshop.
- Product Management, SaaS Pricing Models, Market Analysis, E-commerce (Shopify, eBay), Customer Analytics, Agile/Sprint Planning.
- Customer Service, Sales, Retail Operations, E-Commerce, Marketing Strategy.
- Interpersonal & Communication, Teamwork, Time Management, Problem Solving, Drivers Licence.
- Languages: Hungarian (Fluent), English (Fluent).
